

COACHWORKS

CHARTER TRIP MANAGEMENT

CoachWorks, Enghouse's integrated charter management solution, encompasses tools from all aspects of the charter industry, including sales, dispatch, and accounts receivable. By combining multiple functions into one universal program, CoachWorks increases productivity and streamlines the input and maintenance of estimates, trip orders and financial records.

BENEFITS

Increased Efficiency and Organization

CoachWorks improves the efficiency of your operations by streamlining and combining multiple manual processes into one program. It minimizes the need to train or allocate additional resources to other operations and allows you to focus your time on other business functions.

User-Friendly Functionality

The easy-to-use functionality reduces the time spent training staff, thus resulting in a qualified, independent workforce.

Enhanced Profitability

CoachWorks' multi-operational capacity helps reduce labor costs and allows users to produce more efficient and accurate scheduling. The reduction in costs and improvement in resource utilization enable businesses to generate higher margin from individual trips.

Leading Technology

CoachWorks is powered by the latest Microsoft development platforms, which provide a high-end user interface for increased functionality. CoachWorks executes a vast amount of tasks, and facilitates their use with graphical displays, calculations and a series of financial, sales and operational reports.

Ongoing Scalability

CoachWorks' range and functionality can be scaled to fit your operational needs, thus enabling users to concentrate on aspects that are most relevant and necessary to the operation at hand.

Flexible Architecture

CoachWorks' flexible architecture provides room for growth and customizations based on your specific business needs.
